

F RAND

input/output-compatibility to ib_udf

Entrypoint f_rand compatible with UTF-8

Inputs/Outputs

Input	without	
Output	DOUBLE	floatingpoint-random-number with value
between 0 and 1		

Syntax

This function can create more than one different random-no. in one second because the generator is set with the actual systemtime and the process-ID, so that is is impossible, that 2 calls in the same second return the same random-no.

TestSQL

```
SELECT F RAND() FROM RDB$DATABASE;
```
