

ibec_QuotedStr

Returns the quoted version of a [string](#).

Description

Use `ibec_QuotedStr` to convert the string `S` to a quoted string, using the provided quote character. A single quote character (') is inserted at the beginning and end of string `S`, and each single quote character in the string is doubled.

Note: When working with multi-byte character systems (MBCS), use `ibec_AnsiQuotedStr` instead.

Syntax

```
function ibec_QuotedStr(S: string; Quote: Char): string;
```

Example

- [Copy table](#)
