

# ibec\_ftp\_OpenSession

## Description

ibec\_ftp\_OpenSession creates an FTP session object with specified options.

## Syntax

```
function ibec_ftp_OpenSession(Options : string) : variant;
```

The ibec\_ftp\_OpenSession function creates an FTP session object with specified options. It doesn't perform any network operations, just allocates the necessary resources and initializes internal properties. You should use ibec\_ftp\_Connect functions to connect to the specified server.

## Options

HostName	URL of FTP Server
UserName	User name
Password	Password
Port	Port number to connect, default value is 25.

UserName and Password can be omitted if the FTP server doesn't require them.

## Example

```
FTPSession = ibec_ftp_OpenSession('HostName=myftpserver.com; UserName=me; Password=mysecret');
```
