

# ibec\_ShowMessage

Displays a message box with an OK button.

## Syntax

```
procedure ibec_ShowMessage(const Msg: string);
```

## Description

Call `ibec_ShowMessage` to display a simple message box with an OK button. The `Msg` parameter is the message string that appears in the message box. The name of the application's executable file appears as the caption of the message box.

To display a message in a message box with other buttons, or with an icon, use the [ibec\\_MessageDlg](#) function.
