2023/09/06 10:11 1/2 ibec DisableFeature

ibec DisableFeature

Using this feature it is possible to disable all menu items, and then, using ibec_EnableFeature, to blend only those in which you wish the user to see. A particularly useful security feature!

Syntax

```
function ibec_DisableFeature(FeatureID : integer, FALSE);
```

Example

```
execute ibeblock
as
begin
  ibec_DisableFeature(0);    --disable all
  ibec_EnableFeature(1003);    --enable Tools menu
  ibec_EnableFeature(2148);    --enable menuitem tools-data analysis
end
```

The example above enables only the IBExpert Tools menu item, Data Analysis. The numbers quoted directly after the IBEBlock keyword can be found in the IBExpert Tools menu, Localize IBExpert.
